2. The facts supporting this belief are as follows:

On 9/27/2025, at approximately 1600 hours, Jackson County Sheriff's Office Deputies responded to [REDACTED] Kansas City, MO), Jackson County 64126, in reference to shots fired inside the residence. While en route, dispatch personnel advised Witness 1, [REDACTED] (W1) stated Victim 1, [REDACTED] (V1) was shot in the head by Suspect 1 (S1) but V1 was still breathing.

After responding to the area Deputy Brice #50, Deputy Ly #87, Deputy Norton #66, and Deputy Curd #91 maintained perimeter around the residence, while Deputy Davidson #79 made phone contact with W1, at the Inner City Fire Department and was able to obtain a phone number for S1. Deputy Davidson contacted S1 by phone and was able to get all parties to exit the residence.

Deputy Brice reported while conversing with V1, who was alert and conscious, he, (Deputy Brice) observed an obvious wound on the right side of V1's head as well as blood and an unknown clear/hazy liquid, which was later believed to be Vaseline that V1 had applied himself to the wound. V1 advised S1 believed he was "snitching" and was yelling at him about it. V1 stated while he was walking downstairs S1 was behind him and S1 shot him. V1 did not know what he was shot with but believed it to be a gun. V1 stated he utilized a towel to contain the blood on his head. STATEMENT OF PROBABLE CAUSE**2 of 3****DATE: 9/28/2025**

During phone interview with V1, Detective M. Curd #42 was told by V1 that S1 instructed V1 to go down stairs and look for some missing keys. V1 advised as he was on the second or third step down, with S1 right behind him, he heard a gunshot and was struck in the right side of the head. V1 advised that he put his hand to his head and saw that he was bleeding. V1 advised S1 then guided him to the bathroom and began to treat the wound by applying pressure, washing the blood away with water and then assisting with packing the wound with Vaseline, in an attempt to get the bleeding to stop and cover up the injury. V1 advised that as S1 was doing all this he continuously grabbed at something in his pants pocket. V1 further advised that after S1 tried to cover up the injury and was on the phone with Deputy Davidson, S1 went into W1's room for a moment before complying with the Deputies orders to exit the residence. V1 advised he never saw S1 with with a weapon but was sure S1 shot him with one. V1 advised that he did believe S1 shot him in the head and that he (V1) was willing to aid in prosecution in this incident.

A search warrant for the residence was applied for by Sgt. Berger #29, and granted, to locate an unknown make and model firearm and/or firearm components that were used in the crime, spent shell casings, bullets , ammunition, and the observed shirt with apparent blood.

Detective Curd located a loaded black Glock 27, 40 caliber pistol between the mattress and box springs, located in W1's bedroom. Next to the pistol was a loaded extended Glock magazine capable of holding 22 40 caliber rounds of ammo. After photographing and upon making the weapon safe, Detective Curd observed there to be 1 live Federal Smith and Wesson round, (with a brass in color casing,) in the chamber. He further observed there to be 3 Tulammo 40 caliber Smith and Wesson (with a gray in color casing) and 4 Federal 40 Caliber Smith and Wesson live rounds loaded into the magazine that was ejected from the pistol. In the 22 round extended magazine, Detective Curd found there to be 11 Tulammo rounds and 10 Federal rounds. It should be noted that the rounds were stacked into both magazines as follows. 1 Tulammo round, followed by a Federal round, then a Tulammo round, followed by another Federal round and so on.

In the bathroom of the residence, Detective Curd recovered a wet white t-shirt with apparent blood stains, from the bathtub.

In the stairwell of the basement, a spent Tulammo, gray in color casing was found, above the stairs, on a shelf, near the wall.
